EDUCATION

B.S. Cybersecurity and Information Assurance

Western Governors University, July - 2026

CERTIFICATIONS

CompTIA Security+ (Expected 7/26)

PROJECTS

Vulnerability Management and Threat Hunting Projects

Source: github.com/Symone-Marie

Platforms and Technology Used: Tenable.io, SIEM (Microsoft Sentinel), EDR (Defender for Endpoint), Azure VMs, KQL

EXPERIENCE

- **Cybersecurity Analyst | Log(N) Pacific (Remote) October 2025 – Present**

Vulnerability Management

- Conducted vulnerability scans, provided detailed reports, and implemented PowerShell-based remediations, contributing to a 100% reduction in critical, 90% in high, and 76% in medium vulnerabilities for the server team.
- Performed vulnerability assessments and risk prioritization using Tenable across Windows and Linux environments.
- Executed secure configurations and compliance audits (DISA STIG) with Tenable to meet industry standards.
- Automated remediation processes and STIG implementations using PowerShell to address critical vulnerabilities.

Security Operations & Incident Response

- Performed threat hunting with EDR, detecting IoCs from brute force attacks, data exfiltration, and ransomware.
- Designed, tested, and published advanced threat hunting scenarios for incident response tabletop exercises.
- Developed custom detection rules in Microsoft Defender for Endpoint to automate isolation and investigation.
- Reduced brute force incidents by 100% by implementing inbound NSG/firewall rules to limit Internet exposure.
- Created Microsoft Sentinel dashboards to monitor logon failures and malicious traffic using threat intelligence.
- Queried logs within SIEM and EDR platforms using KQL (Kusto Query Language) for threat detection and analysis.

University of Maryland Global Campus

Admissions Advisor

July 2025 – Present

- Conducted high-volume interactions with prospective students via phone, video conferencing, text, and email
- Guided prospective students through their decision-making process using consultative dialogue to explore needs and concerns
- Maintained and provided accurate information on admissions processes, program requirements, policies, procedures,

and deadlines

- Contributed to individual, team, and unit enrollment goals on a daily, weekly, and monthly basis
- Proactively engaged with prospective students to help them overcome barriers in the enrollment process
- Acted as a liaison for prospective students by assisting with registration, degree planning, and coordination between University departments
- Provided comprehensive responses to student questions regarding transfer credit, transcripts, document tracking, and records
- Provided information on payment options and military/veteran educational benefits via phone, text, and email
- Developed referral leads from prospective students, UMGC alumni, and personal networks
- Participated in recruitment activities including virtual open houses, information sessions, webinars, and classroom presentations

ADDITIONAL SKILLS AND TECHNOLOGIES

Endpoint Detection and Response, CVE/CWE Management, CVSS Scoring, OWASP Top 10, Risk Prioritization, Vulnerability Remediation, PowerShell Scripting, BASH Scripting, Firewall/NSG Configuration, NIST 800-37: Risk Management Framework, NIST 800-53: Security and Privacy Controls, NIST 800-61: Computer Security Incident Handling Guide, NIST 800-40: Guide to Enterprise Patch Management Planning, NIST Cybersecurity Framework, PCI-DSS, GDPR, HIPAA
